

# Hazard Map:

[Risk of Residence Collapse (Full or Partial) ]

South of City

| Map Symbols |                                                              |
|-------------|--------------------------------------------------------------|
|             | Designated evacuation shelter                                |
|             | Fire station or substation                                   |
|             | Wide Evacuation Sites                                        |
|             | Temporary Evacuation Sites                                   |
|             | Emergency Water Supply Point                                 |
|             | Medical facility                                             |
|             | Police office, police box or office substation               |
|             | Emergency evacuation escape route (designated by prefecture) |
|             | Emergency evacuation escape route (designated by city)       |
|             | Major road                                                   |
|             | Main road connecting to evacuation location shelter          |
|             | Evacuation route to open evacuation area                     |

| Map Color Coding |                                                  |
|------------------|--------------------------------------------------|
|                  | Fully/partially collapsed buildings more than 50 |
|                  | 30-49                                            |
|                  | 10-29                                            |
|                  | 1-9                                              |

Note: The color code represents the overall value for each mesh unit on the map. The number is the total of full and partially collapsed residential buildings.
