If you think, "I'm all right," you are in danger. Learn from the experience of those in disaster -stricken areas.

A Nankai Trough Earthquake, said to be the largest in western Japan, is predicted to occur with approximately 70% to 80% probability within the next 30 years. It would not be surprising if it happened at any time.

**Based on the announcement by the Headquarters for Earthquake Research Promotion, Cabinet Office, Government of Japan. As of January 1, 2023

Active faults in and around Ibaraki City

Underneath the center of the city lie the Arima-Takatsuki fault line and the lkoma and Ueno faults run around the circumference of the city.

Source: Ibaraki City regional disaster prevention plan (Amendment in February 2023)

Assume the largest damage when an earthquake (M7.5±0.5, with an intensity of less than 5 to 7) takes place within the Arima-Takatsuki fault zone.

It is essential to prepare for an emergency on a daily basis.

Please check such things as the safety of your house, emergency supplies and evacuation routes. It is important to discuss disaster prevention with

your family and neighbors.

*Please read "Emergency Action Now!" so that you can act immediately when disaster strikes.

In the event of an earthquake. what were the things that you should have prepared in advance?

No.1 >>>Drink water

No.2 Flashlight

No.3 Emergency food

Source: Questionnaires of the disaster victims after the great Hanshin-Awaji earthquake (conducted by the Fire Department of Kobe City)

The voices from Learn from experience the affected areas

The Great Hanshin-Awaji Earthquake (in 1995) and the Great East Japan Earthquake (in 2011) took the lives of many people and inflicted enormous damages. In recent years, natural disasters, such as torrential rain caused by unusual weather and flooding or landslides caused by typhoons, have occurred in many places across the nation. We have collected the voices of victims who experienced those earthquakes in the past.

At the time of disaster

No way! Why me?

I learned my husband was safe after three days.

I should have written down his phone number.

The East Japan earthquake (Female)

As I felt danger,

I evacuated earlier than was advised.

Immediately after, my house swept away in a landslide. The landslide disaster of Hiroshima city. (Male)

In the evacuation life

My son has any food allergies, so he could not eat most of the supplies.

The Hanshin -Awaji Earthquake (Female)

Neighbors gave me information in writing.

It is important to work in close cooperation.

The East Japan earthquake (Hearing-impaired female)

As I wrote down the name of medicine,

I could take the same prescribed medication. The East Japan earthquake (Asthma patient Male)

That day, That time, That place

I couldn't act fast enough. The Hanshin – Awaji Earthquake (Male)

It was far to evacuation shelter.

should have confirmed the location in advance.

When

evacuating

The East Japan earthquake (Male)

I felt uneasy because I could not understand Japanese.

The Hanshin – Awaji Earthquake (Foreign man)

As I was in my office at the time of the disaster. I had to walk home.

It was very helpful to keep flat shoes in my office.

The East Japan earthquake (Male)
